**Subject:** West KL Ave Lf Five-Year Review

Hi Shari,

As I mentioned to you a couple weeks ago, we have not received the DRAFT FYR for the KL site for our review and comments.

You mentioned in your Five-Year notification letter to me dated August, 2013 that the MDEQ will receive the DRAFT FYR by December 31, 2013. In the same letter you requested MDEQ to provide comments to EPA by February 28, 2014. I am concerned that MDEQ may not have adequate time to review and provide meaningful input and also present the DRAFT review to the internal review team (SRT) within the time frame requested.

You may need to push back your timeline in view of the fact that the DRAFT document has not yet been submitted to MDEQ for review and comments.

Thanks for your attention to this matter.

Wally
